PROFESSIONAL SUMMARY

Java Full Stack Developer with experience building enterprise web applications and microservices using Java, Spring Boot, Spring Cloud, React.js, and MySQL. Skilled in developing secure REST APIs, JWT authentication, and scalable backend systems. Passionate about building reliable, production-ready software solutions.

TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript
- **Backend:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, Microservices, REST APIs
- **Frontend:** React.js, HTML, CSS, Axios, Thymeleaf
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Maven, Postman, Linux, JUnit

PROJECTS

MedSync – Hospital Management System

Mar 2026 – Jul 2026

Tech Stack: Java, Spring Boot, React.js, Microservices, Spring Security, JWT, MySQL

 GitHub | [Live Demo](#)

- Designed a microservices-based Hospital Management System with 8+ independent services, improving scalability and maintainability through modular architecture.
- Built 40+ REST APIs using Spring Boot, React.js, and MySQL for patient management, appointments, staff administration, bed allocation, and discharge workflows.
- Implemented JWT authentication with Spring Security and role-based access control (RBAC) for secure, permission-based access.
- Integrated Spring Cloud Gateway, Eureka Service Discovery, and SendGrid for inter-service communication and automated email notifications.
- Optimized MySQL queries, indexing, and service-layer caching, reducing average API response time from 650 ms to 220 ms.

VaultEdge – Enterprise Banking System

Nov 2025 – Jun 2026

Tech Stack: Java, Spring Boot, React.js, Spring Security, JWT, MySQL

 GitHub | [Live Demo](#)

- Built a full-stack banking application with account management, fund transfers, loan processing, and 15+ REST APIs.
- Implemented JWT authentication, Spring Security, RBAC, and OTP-based verification for secure transaction workflows using JPA/Hibernate.
- Designed responsive Customer and Admin dashboards for account management, loan tracking, and transaction history.
- Tested REST APIs using Postman and managed source code with Git/GitHub.

ExpenseIQ – Expense Management REST API

Aug 2025 – Sep 2025

Tech Stack: Java, Spring Boot, Spring Data JPA, MySQL

 GitHub

- Developed a layered-architecture REST API supporting CRUD operations for users, categories, and expenses.
- Structured the backend using Controllers, Services, DTOs, Repositories, Spring Data JPA, and centralized exception handling.
- Tested REST APIs using Postman and managed source code with Git/GitHub.

WORK EXPERIENCE

Generative AI Intern – Codegnan (APSCHE)

May 2024 – Jul 2024

- Built AI-powered web applications using Generative AI tools and prompt engineering.
- Integrated AI services with backend applications through REST APIs and documented enterprise use cases.

Machine Learning Intern – SkillDzire

May 2025 – Jun 2025

- Developed machine learning models including Linear Regression, CNN-based image classification, and NLP recommendation systems using Python and TensorFlow.

EDUCATION

NRI Institute of Technology

Vijayawada, Andhra Pradesh

B.Tech in Computer Science & Engineering (AI & ML) — CGPA: 8.80

Sep 2022 – Jun 2026

Sri Vagdevi Junior College

Nuzvid, Andhra Pradesh

Board of Intermediate Education (MPC) — Percentage: 90%

Jun 2020 – May 2022

Thrividha E.M. High School

Nuzvid, Andhra Pradesh

Board of Secondary Education (SSC) — Percentage: 97.4%

Jun 2019 – Apr 2020

ACHIEVEMENTS & CERTIFICATIONS

- Top 10 Finalist among 363+ teams at the CodeSpark India Hackathon 2025 for developing FreeBird, an innovative software solution.
- Certifications: Linux, Core Java, Advanced Java with Spring Boot & Microservices and Web development — Frontlines EduTech.
